Total Cost by Category

Repeat Visit % by Building and Building

What the data shows:

1. **One HVAC contractor is too slow.** CoolAir Services finishes only about half (51%) of its jobs on time. ClimateTech does the same work and finishes 90% on time.
2. **Tech Park B is slow at weekends.** On Saturdays and Sundays only 26% of requests get a quick response. On weekdays it's 85%.
3. **Two job types cost the most.** HVAC and lifts are about a third of all requests (35%) but nearly 60% of the cost. Lift repairs are also often late (66% on time).
4. **Riverside Offices has a plumbing problem.** About 29% of its plumbing jobs need a second visit. Other buildings are 4–11%.
5. **Late jobs make people unhappy.** The average rating is 4.3 out of 5 when the job is on time and 3.3 when it's late.

Recommendations:

- Review the CoolAir contract (service credits or move volume to ClimateTech). Moving work may cost more per job, protects SLA and satisfaction.
- Add weekend on-call cover at Tech Park B. Adds labour cost, closes the largest response gap.
- Check lift spare parts availability. Holding stock costs money, shortens repair time.
